

Public Meeting Comment Form
Gadsden Etowah MPO 2040 Long Range Transportation Plan (LRTP)
November 13, 2014

How would you rate the transportation system in your community today?

	Excellent	Good	Fair	Poor
Traffic conditions on major roads				
Traffic safety and control on major roads				
Road pavement condition				
Sidewalk and crosswalk condition				
Bike lanes and pedestrian paths				
Greenways and multi-use trails				
Public transportation/transit services				

If "poor" was selected for any aspect, please provide more details below.

Because funding is limited, the MPO must establish priorities. In your opinion, what are the most important improvement activities to consider for implementation during the next 25 years?

	Most Important 5	4	3	3	Least Important 1
Build new roads					
Widen existing roadways					
Better traffic signal operations					
More sidewalks and pedestrian facilities					
More bike lanes and bicycle facilities					
More greenways and multi-use trails					
Improve safety for pedestrians and bicyclists					
Safe routes to schools (walking/biking)					
More transit service					
Improve freight movement					
Protect natural and historic resources					

Public Meeting Comment Form
Gadsden Etowah MPO 2040 Long Range Transportation Plan (LRTP)
November 13, 2014

Are there specific locations you encounter in your daily travels that need roadway improvements due to congestion, safety, or operations (signal timing, intersections)?

Where are pedestrian and/or bicycle facilities most needed?

Are there any specific locations that should be better served by transit?

Are you aware of any projects that no longer need to be considered?

Please provide any additional comments regarding any aspect of the transportation system in the Gadsden Etowah MPO area:

Forms can be submitted via email to mtabengwa@cityofgadsden.com or mail to GEMPO LRTP Comments, 1699 Chestnut Street, Gadsden, AL 35901
